Because: 1. In comparison with Geometry and other sciences of that kind they are not so simple and general They have not been formed as the counterparts of something real and true Their imagination is so extravagent to invent something so noval 4. We are bound to confess that they are so simple and general 11- Nevertheless I have long had fixed in my mind the belief that an all-Powerfull God existed by...... I have been created such as I am. **1.** Who 2. Whose 3. Him 4. Whom 12- About " Arithmetic, Geometry, and other sciences of that kind " Which one is True: Arithmetic, Geometry, and other sciences of that kind are not so simple 2. This kind of sciences contain some measure of certainty and an element of the indubitable We have not great trouble to ascertain the actuality of them 4. It does not seem possible to prove the simpleness and clarity of these sciences 13- What is the distinction between a priori and a posteriori knowledge? 1. a priori is independent of experience - A posteriori has not its sources in experience 2. a priori is dependent on experience - A posteriori has its sources in experience 3. a priori is independent of experience - A posteriori has its sources in experience 4. a priori is independent of experience - A posteriori has full meaning and contain 14- If we have a proposition which in being thought is thought as necessary, it is...... judgement; and if, besides, it is not derived from any proposition exept one which also has the validity of a necessary judgement, it is an absolutely...... judgement. 1. a priori - a priori a priori - a posteriori 3. a posteriori - a priori a posteriori - a posteriori 15- In Kant's view. there are some unavoidable problems set by pure reason itself. They are: 1. God - Immortality - Metaphysics 2. God - Immortality - Freedom 3. God - Immortality - Dignity of the soul 4. God - Freedom - Metaphysics 16- In Kant's opinion; "It would be absurd to found an analytic judgement on":

17- The proper problem of pure reason is contained in the questic	17- '	The proper problem	n of pure reason	is contained in	the question
---	-------	--------------------	------------------	-----------------	--------------

- 1. How are a priori analytic judgements possible?
- 2. How are a psteriori synthetic judgements possible?
- 3. How are a posteriori analytic judgements possible?
- 4. How are a priori synthetic judgements possible?

18- A provides bounderies within which we ask questions , corry out investigations and make judgements.

- 1. verification
- 2. justification
- 3. system
- 4. proposition

- 1. They are common ways of speaking and thinking that are pressed on us by our human community
- 2. We accept the framework propositions with reflection and deliberation
- 3. We do not come to adhere to a framework proposition, in the sense that it shapes the way we think
- 4. There are some boundaries within which we are not able to ask questions

20- Ibn Sina thinks that "the purpose of theoretical philosophy is":

- 1. To perfect the soul through good act and remembherance of heaven
- 2. To perfect the soul through movement which can be attached to it
- 3. To perfect the soul through knowledge alone
- 4. To perfect the soul through knowledge of what must be done

21- Why, from Ibn-Sina"s view, are universal concepts so important?

- 1. For logicians derive known concepts from unknown ones
- 2. For logician distinguishes the valid from invalid explanatory phrases
- 3. For the primary concern of the logician is to arrange concepts in a certain manner
- 4. For the ultimate goal of the logician is to mirror the nature of things
