<sup>1-</sup> which of the following fi	elds are me	erely botanical	?				
1. genetics	2. agrono	omy	3.	ecology	4.	cytology	
2-The plant body is also	organs						
1. made up of	2. mac	de up by	3.	make by	4.	make of	
3-What is the black tea ma	de from?						
1. green leaves			2.	two end leaves			
<sup>3.</sup> fermented leaves			4.	old leaves			
4- Coniferin and amygdalin are in chemical nature.							
1. different	<sup>2.</sup> the sar	me	3.	similar	4.	alike	
5-Many medicinal plants in throughout of the world							
1. grew	2. grow		3.	grown	4.	are grown	
6-Chemosynthesis takes place in kinds of bacteria							
1. many	2. one		3.	much	4.	afew	
7-Oxygene is a of photosynthesis							
1. raw material	<sup>2.</sup> by -pro	oduct	3.	organic gas	4.	second product	
8-Green plants in order	to survive						
1. eat animals			2.	eat other plant			
<sup>3.</sup> make their own food			4.	make their bodies			
9-Photosynthetic reactions are complex respiretory ones							
1. as,so	2. as,as		3.	s0,s0	4.	so,as	
10-Chemosynthesis takes pla	ace in ki	inds of bacteria					
1. many	<sup>2.</sup> one		3.	much	4.	afew	
<sup>11-</sup> Some compositae sesquiterpene lactones that cause contact dermetities in human							
1. are	2. <sub>is</sub>		3.	have	4.	has	
12-What is the kind of fruit of common sunflower							
1. drup	2. cypsela	a	3.	nut	4.	legume	
13-Which term does mean the place or kind of places in which an organism is found							
1. ecology	2. <sub>nich</sub>		3.	habit	4.	habitat
