<sup>1</sup> -The main problem of using expert opinion as a source of information is that it is					
1. objective	<sup>2.</sup> subjective	<sup>3.</sup> experimental	<sup>4.</sup> correlational		
<sup>2</sup> -Research has a number of characteristics. Which of them refers to the fact that the researcher should employ a structured procedure?					
1. Generative	<sup>2.</sup> Systematic	<sup>3.</sup> Replicable	<sup>4.</sup> Logical		
<sup>3-</sup> Which of the following types of research refers to exact or partial replication of previous research in order to support already discovered facts?					
1. Exploratory researc	h	<sup>2.</sup> Confirmatory rese	arch		
<sup>3.</sup> Pure research		<sup>4.</sup> Applied research			
4-What is the first step in	n conducting a research?				
1. Selecting a research method		<sup>2.</sup> Testing hypotheses			
<sup>3.</sup> Formulating a research question		<sup>4.</sup> Preparing a report			
5-One of the fa	actors that can be a good	l topic for research is moti	vation.		
1. affective	<sup>2.</sup> cognitive	<sup>3.</sup> social	<sup>4.</sup> physical		
6-Which of the following	g is <u>NOT</u> one of the main o	characteristics of a good re	esearch question?		
1. Interest	<sup>2.</sup> Relevance	<sup>3.</sup> Manageability	<sup>4.</sup> Scope		
7-Which of the following factors?	; questions asks about the	e degree of relationship be	etween two or more		
1. Cause effect question	on	<sup>2.</sup> Correlational ques	iton		
<sup>3.</sup> Descriptive question	n	4. Experimental question			
<sup>8-</sup> The goal known as formulate relevant the		erstand the reasons for cer	tain phenomena and to		
1. formulation	<sup>2.</sup> explanation	<sup>3.</sup> description	<sup>4.</sup> prediction		
9-Which section of the p participants?	aper should you read if y	ou are interested in know	ing the number of		
1. Method	<sup>2.</sup> Discussion	<sup>3.</sup> Introduction	<sup>4.</sup> Conclusion		
10-The section of hypotheses.	of a research study serve	s as a basis from which we	e can produce		
1. abstract	<sup>2.</sup> data analysis	<sup>3.</sup> method	<sup>4.</sup> theory

11-Which of the following scales is appropirate for recording data about a person's first language?					
1. Nominal scale	<sup>2.</sup> Ordinal scale	<sup>3.</sup> Interval scale	<sup>4.</sup> Ratio scale		
12-Which of the following scale conversions is acceptable?					
1. Nominal to ordinal		<sup>2.</sup> Ordinal to interval			
<sup>3.</sup> Interval to ratio		<sup>4.</sup> Interval to ordinal			
13-What is the control variable in the research question below? What is the effect of oral method on adolescent learners' speaking ability?					
1. Oral method		<sup>2.</sup> Age			
<sup>3.</sup> Speaking ability		<sup>4.</sup> Language learning			
<sup>14-</sup> The variable can be considered a continuous and abstract variable.					
1. race	<sup>2.</sup> intelligence	<sup>3.</sup> weight	<sup>4.</sup> height		
<sup>15-</sup> Which of the following data related to past ev	•	matic collection and an ob	ojective evaluation of		
1. Correlational resear	1. Correlational research		<sup>2.</sup> Empirical research		
<sup>3.</sup> Quasi experimental research		<sup>4.</sup> Historical research			
16-Which of the following document is truly writ		torical researcher tries to s claimed to have written			
1. General validity		2. External validity			
<sup>3.</sup> External criticism		<sup>4.</sup> Internal criticism			
17-The most suitable meth	nod to collect data about	facts, opinions, and beha	viors is the		
1. developmental method		2. cross sectional method			
<sup>3.</sup> case study		<sup>4.</sup> survey method			
<sup>18-</sup> The absence of turns the experimental mehtod to a quasi experimental method.					
1. control group		<sup>3.</sup> randomization			
19-If we cannot prove that the changes in the dependent variable is due to the manipulation of the indepedent variable, our study loses its

	20-Which of the following is the reasonable alternative for true experimental method?					
1. Time series design		•	<ol> <li>Pre-experimental design</li> <li>One shot design</li> </ol>			
<sup>3.</sup> Quasi-experimental		<sup>4.</sup> One-shot design				
21-Which of the following		-	<b>A</b>			
1. Self-esteem	<sup>2.</sup> Memory	<sup>3.</sup> Attitude	<sup>4.</sup> Anxiety			
22-What should a researcher do with a general research question?						
1. He should collect da			<sup>2.</sup> He should do a review of literature on it.			
<sup>3.</sup> He should first narro	ow it down.	<sup>4.</sup> He shoud formul	ate a hypothesis for it.			
23-An uncertain answer to						
1. inquiry	<sup>2.</sup> hypothesis	<sup>3.</sup> topic	<sup>4.</sup> statement			
24-What type of reasoning	g is the oldest method o	of reasoning?				
1. Deductive	<sup>2.</sup> Inductive	<sup>3.</sup> Empirical	<sup>4.</sup> Verifiable			
25-Which of the following	, is <u>NOT</u> one of the major	r goals of research?				
1. Description	<sup>2.</sup> Classification	<sup>3.</sup> Prediction	<sup>4.</sup> Explanation			
26-Which of the following	; is <u>NOT</u> considered a cog	nitive factor in learning?	?			
1. Learning inhibition		2. Learning process				
<sup>3.</sup> Learning strategy		<sup>4.</sup> Learning style				
27-What kind of hypothesis is the one below? The new method has no significant effect on listening comprehension.						
1. Null hypothesis			<sup>2.</sup> Directional hypothesis			
<sup>3.</sup> Non-directional hype	othesis	4. Alternative hypothesis				
28-According to, s senses.	something is meaningful	only if we can observe it	through one of our			
1. logical positivism		<sup>2.</sup> behaviorism				
<sup>3.</sup> nativism		<sup>4.</sup> structuralism				
<sup>29-</sup> Which of the following should a researcher do in order to avoid mere duplication of previous research?						
1. Survey study		<sup>2.</sup> Literature review	I			
<sup>3.</sup> Hypothesis testing		<sup>4.</sup> Experimenting
